Identify your competencies

Do you have experience in a profession and would like to know how you can use your professional experience in Sweden?

You do the self-assessment by filling in a form that is associated with the requirements on the profession in the Swedish labour market. You can use this information in dialogue with the Employment Service to continue your career planning.

The answers can make it easier for the Employment Service and for you to choose which of the Employment Service's measures is right for you. You may need support in finding out about how you can utilise your competencies in Sweden, or information about how to move on, book a meeting with a study and career guidance counsellor to understand how you can use your competencies, acquire additional education or carry out a validation.

All your knowledge and experience count.

The professions covered in this self-assessment are: teachers, preschool teachers, special needs teachers, and other professions in primary and secondary education

Please answer the questions below. If you need help and want to discuss the questions, arrange a meeting with the Employment Service.

1. Personal information

Personal information

Personal identity number:

Coordination number:

First name:

Surname:

c/o:

Address:
